

# humistar® WG

Humistar WG is a natural humic extract, based on Humic and Fulvic Acids (4:1 ratio), soluble in water and obtained from American Leonardite. Humistar WG is a high quality and rapidly dissolving micro granule that is 100% soluble in water avoiding blockages in application equipment. Humistar WG improves the physical, chemical and biological characteristics of soil, facilitating the availability and uptake of nutrients by crops. Humistar WG increases the quantity of fine (white) roots.

## DOSAGE AND METHOD OF USE

Application	Crop	Rate (g/ac)	No. of Application	Comments
Soil Application/ Drip	General (Horticulture)	400	4	After transplanting, at flowering, fruiting & harvesting or at 25 days interval.
	General (Orchards)	400	4	At budburst, flowering, fruiting & ripening or at 25 days interval.
	Nursery substrate	400	1	Mix with 1m <sup>3</sup> substrate.

## COMPATIBILITY

Humistar WG is compatible with most fertilizers and agrochemical products, except mineral oils, calcium nitrate, acid reaction products and herbicides that are not compatible with organic material. It is recommended to test before preparing any mixtures and to consult technically authorised personnel.

## WARNINGS, HANDLING AND STORAGE

Keep out of reach of children. Do not eat, drink or smoke when using this product. Keep in a cool, dry place. Keep away from direct sunlight and extreme temperatures. Keep only in original container. Keep in a sealed state. Use the product according to the instructions in this label. In case of doubt, please contact authorized technicians. To optimize the speed of dissolution and to avoid the formation of lumps, it is recommended that the product be added slowly to the mixing tank and stirred until total dissolution is achieved.

**Disclaimer :** The recommendations and information provided comes from several trials and studies that have been undertaken, however, during the application of the product several factors out of our control may take place (tank mixes, application, climatic conditions, etc.). Any recommendation must serve as a guide and be adapted to local conditions.
